

## 2004 - The Year of Love, Manifested♥

2004 is about Love, first and last, but Love developed and manifested into one's experience through the use of its double dose of creativity in partnership with one's vision for the year.

2 plus 0 plus 0 plus 4 gives the Six Vibration to the Year's energy - the theme of the Idealist who knows "Love is all there is". It is the reason each of us has chosen to be present in the Earth School at this time — in order to experience Love, to give and receive Love, to be a channel for that Highest Pure Source of Love that is the God of Your Understanding. With the world going through such turmoil, almost to the point of frenzy, the timing of this vibration is remarkably appropriate. Indeed, many Master Teachers encourage us to [give Love away](#) in order that we may, each of us, also have the space within us to receive that Love and more.

In order to fulfill our delightful task of experiencing Love, the vibrations of 2, 0 and 4 are part of the mix. When we access the vibration of Two we are opening ourselves to the gracious, supportiveness of the Diplomat. Partnerships and relationships of all types —friends, lovers, business partners, co-workers and colleagues, companions, parents and children —all are the means through which we are able to bring consideration, harmony, patience, and charm into our environment and to persuade others to join us in an honest appreciation of the "Wonderful Life" we can create here and now —each of us in each of our partnerships.

Next, we have the great gift of Creativity Doubled. The zero, far from being a mere place filler, is that quiet, patient yet nurturing space wherein creativity and dynamic growth occur. This is [the place of innocent accomplishment](#) —where we can go in our imaginations, our visualizations and explore the visions we would like to manifest. [And because at that point, we are imagining or imaging, there is no logic present to say we cannot accomplish this. The result —often —is that we can go ahead and do it.] As we work with this energy, we have the time to change and re-arrange, to "practise" what it would be like living our dream, to get comfortable with the possible experience and to gain clarity on what part of our plan/ dream/ goal is most important to us. Then, when we are in a state of passion and great readiness, we birth our visions through ...

The energy of the Four —the Builder —This is a [great year for accomplishment](#) and achievement as we are given support, both practical and persistent, to do the right thing at the right time in the right way with the right people for the benefit of All concerned.

When we are in harmony with this Year, we will easily respond to accepting our responsibility for our lives and our impact on the world around us. We will find our loyalty enhanced and our idealism more apparent in our outlook and, even, our actions. Others may view us as being more conventional as we take on the role of caretaker, nurturing ourselves, our homes, our communities and our world —without the imposition of boundaries and borders. And at this point, we have become unconventional to some, but Love knows no limits, so how can we? We will find ourselves demonstrating our belief that we are all in this together so we might as well create as much of an ideal existence as we can. And as we strive to find the good in everyone, we come from an understanding that no one is perfect, but that each of us is capable of learning from our imperfections and making improvements.

With Love being the magic in this next twelve months, we will find a tendency to express it through music and art as creators, performers, receptive listeners or to whatever degree we allow ourselves the fun and enjoyment.
