

2005 - The Year of Adventure and Illumination ♥

2005 is a complex year with its vibrations of relating, creating and adventuring that are overlaid with the theme of spirituality. This is a year when we are encouraged to step beyond the ordinary and the expected and our group beliefs. To step into a wider world.

As Lazaris tells us ,,,

Open more than your eyes. Open your heart to see the world and its bounty of luminous treasures. Just beyond the boundaries of “what’s so” in your world lies a wondrous world of possibility and potential dazzling with miracles and magic – lies a wondrous world of hope sparkling with expectation and anticipation.

Open more than your eyes; open your heart. Hope. The light will shine brightly; the light will shine more brightly because of you.

In order to fulfill our challenge of finding adventure this year, the vibrations of 2, 0 and 5 are part of the mix. When we access the vibration of Two we open ourselves to the gracious, supportiveness of the Diplomat. Partnerships and relationships of all types — friends, lovers, business partners, co-workers and colleagues, companions, parents and children — all are the means through which we are able to bring our journey into a form where we can harmoniously develop co-operation and consideration of the needs of and benefits to all involved.

Next, we have the great gift of Creativity Doubled. The zero, far from being a mere place filler, is that quiet, patient yet nurturing space wherein creativity and dynamic growth occur. This is the place of innocent accomplishment — where we can go in our imaginations, our visualizations and explore the visions we would like to manifest. As we work with this energy, we have the time to change and re-arrange, to “practise” what it would be like living our dream, to get comfortable with the possible experience and to gain clarity on what part of our plan/dream/goal is most important to us. Then we move to the empowering stage ...

The energy of the Five – the challenging energy of an adventure that excites us to new levels of experience, encourages our adaptability and flexibility in meeting changing circumstances. As we open to new possibilities, new vistas, new views, we enhance the way we relate as we live, grow and travel.

This year is hallmarked by the spiritual nature that arises from the Seven vibration. While we are experiencing a dynamic and ever-moving situation, we are encouraged to remain calm in the stormiest seas. We become illuminated; that is, filled with the Light of our spirituality when our serenity and faith in the Divine is demonstrated as we respond to the events in our lives and our impact on the world around us. Seeking the truth of our circumstances, we set in motion a greater willingness to be responsible for bringing into being the best qualities within each of us, rather than those qualities and experiences that cause further harm and deterioration of life.

While accepting that daily life can be suddenly and unexpectedly changed in dramatic and powerful ways, we seek to take action toward better decisions, more complete answers and discerning what is best for All Life globally. Spirit works within our circumstances and

events in order to temper our steel, encouraging us always to seek the silver lining. As we learn that difficult conditions have their ways to inspire us, so do we reach through the stresses we face to discover the Joy underlying each experience.

And as we open our eyes and our hearts, determining that a greater Good shall come of the situation, we bring the Light of the Divine into this realm and all Life is served.

Thus do we work with and empower ourselves as Beings of Light, Peace and Creativity. Thus do we step into our Power to be a positive force in the Universe for the Highest Good for All.
