

2006 – The Year of Power and Abundance♥

What a great gift this year is intended to be! In the short space of 12 creative months, we are given the opportunity of meeting and merging two energies that often seem to be polar opposites in their vibratory intention.

Abundance so dearly desired by so many who seem unable to grasp the manner in which it can be an on-going stable expression in our lives, yet all around us the Earth screams out its demonstrations that abundance can be the easiest energy experience available to us. Abundance – the sign that God loves us and all is well in our world. How many of us would use all our Power to attract it?

Power: so long and so frequently used as a control mechanism, as a means of instigating power over any and all others; its intention, of course, is to be used as power over, by and through ourselves – and no other. Power has come to be equally as negative in its usage as Abundance is usually positive. How many of us believe the having and manipulating of Power is intimately tied up with the amount of Abundance we accrue?

And yet...

Caroline Myss reminds us that the words Power and Spirit and Soul are different “pronunciations” [if you will] of the same energetic pattern, the same Essence.

As most of you are aware, the thousand year period of the 2 vibration gives us the opportunity to clearly and thoroughly study the convolutions of relationship in all its glorious and frustrating forms. When we access the vibration of Two we open ourselves to the gracious, supportiveness of the Diplomat. Partnerships and relationships of all types — friends, lovers, business partners, co-workers and colleagues, companions, parents and children — all are the means through which we are able to bring our journey into a form where we can harmoniously develop co-operation and consideration of the needs of and benefits to all involved. The Age of Aquarius requires of us the development of Humanity as a global community where the needs of the one are equally as important as the needs of the many.

For this year and four more years, we will enjoy the inspiration of the double Zero – Creativity abounding in that quiet, patient yet nurturing space wherein creativity and dynamic growth occur. This is the place of innocent accomplishment — where we can go in our imaginations, our visualizations and explore the visions we would like to manifest. As we work with this energy, we have the time to change and re-arrange, to “practise” what it would be like living our dream, to get comfortable with the possible experience and to gain clarity on what part of our plan/ dream/ goal is most important to us. And we can do this

with a depth of experience and richness that when we actually take on the manifestation of this dream; it is so familiar to us that it is like slipping on a comfortable robe and feeling very much at home.

Then we move to the Beauty of the present moment when we align our intentions and our visions with the energy of the Six. In the Sepheroth form, at the centre of the Tree of Life, we find a space called Beauty and its number in the pattern is 6. Six is often connected to the best manifestations of family and its place at the centre is one of honour, love, harmony and balance. All of these vibrations are available to us during this year.

When one looks at the basic energy of 2-0-0-6, we are in the presence of a very rewarding energy. The Eight is the number of harvest, of reaping what has been sown, of abundant reward. It is important to remember; however, that these energies are very detached and neutral. As the Lama said, in Rudyard Kipling's wonderful book, Kim: "Just is the Wheel [of Life and Karma], swerving not a hair."

And so it is that the Eight energy will bring you exactly the result that you have planted, nurtured or ignored, lifted up or stomped on to the very measure that you have given out. If your result is unsatisfactory, it is because you have passed up opportunities to give satisfaction; if your result is rewarding, again, it is because you have shared a thought-full word, a cup of water, a comforting shoulder or an uplifting hand – and whether or not you remember doing so, know that the Universe is aware of all and rewards all according to what you have given.

If you feel you may not have done as well as you intended or would have hoped, know that in this year, you will be given opportunities to rectify wrongs, make higher choices, come to clearer understandings of Life which in its Truth is really very simple.

Look forward to this year; it has the Power to amaze you abundantly in all ways if you will only participate with it consciously.

As the Essenes so power-fully and prophetically said: "Peace be with you."
